## WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

## 8. SHOWING

The enclosed statement will show that the delay in timely payment of the maintenance fee was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that this petition is being filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The statement must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which the patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

## 9. PETITIONER(S) REQUESTS THAT THE DELAYED PAYMENT OF THE MAINTENANCE FEE BE ACCEPTED AND THE PATENT REINSTATED.

STATEMENT

S I R:

I, Robert P. Michal, hereby declare that:

I am registered to practice before the U.S. Patent and Trademark Office. I was formerly employed at the law offices of Frishauf, Holtz, Goodman & Chick, located at 220 Fifth Avenue, New York, NY 10001. In April, 2010, I joined the law firm of Lucas & Mercanti, LLP.

2013 FEB -1 2:10:51

During my change of offices from Frishauf, Holtz, Goodman & Chick to Lucas & Mercanti, LLP, numerous clients indicated that they wanted me to continue handling their matters, and they therefore authorized Frishauf, Holtz, Goodman & Chick to transfer responsibility for their matters to me at my new office. As clients provided their authorization to transfer responsibility for matters to me from my former firm to my new firm, files and docket reports were provided by my former firm to me at my new firm. Upon receiving the docket reports from my former firm, the information was provided to the docket department of Lucas & Mercanti, LLP to have all of the matters for which responsibility was being transferred entered into the Lucas & Mercanti docket system. On or about April, 2010, Sam Cynamon, the Patentee of USP 6,475,047, requested that responsibility for his patent matters, including USP 6,475,047, be transferred to me at my new office.

On January 30, 2013, I received a telephone call from Sam Cynamon inquiring as to the status of USP 6,475,047. Specifically, Mr. Cynamon inquired as to whether the necessary second maintenance fee had been submitted to the U.S. Patent Office in connection with USP 6,475,047 to maintain this patent. I advised Mr. Cynamon that if the patent was in our docket system, that the maintenance fee would have certainly been paid. During my telephone conference with Mr. Cynamon, I accessed the PAIR

system through the Patent Office website, and discovered that USP 6,475,047 had expired due to the non-payment of maintenance fees under 37 CFR 1.362. I also confirmed with Mr. Cynamon that he did not receive any notification that the maintenance fee was due on USP 6,475,047.

Thereafter, I checked the Lucas & Mercanti, LLP records for all of the matters that were transferred from the offices of Frishauf, Holtz, Goodman & Chick to Lucas & Mercanti, LLP, and discovered that USP 6,475,047 and the corresponding office file were not transferred to the offices of Lucas & Mercanti, LLP, nor was the patent listed in the docket reports provided by Frishauf, Holtz, Goodman & Chick to Lucas & Mercanti, LLP. As a result, USP 6,475,047 was not entered into the docket system of Lucas & Mercanti, LLP, nor was a change of correspondence address and attorney/agent information submitted to the Patent Office. The Patent Office records still identify Frishauf, Holtz, Goodman & Chick as the correspondent, although the name of the firm has slightly changed since my departure in April, 2010 to Holtz, Holtz, Goodman & Chick, and the Patent Office records have been updated to reflect the change of firm name.

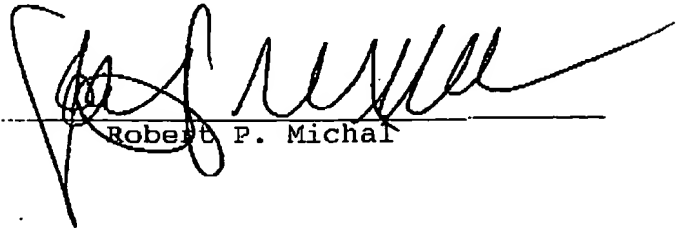

Since my current firm, Lucas & Mercanti, LLP, was not identified as the correspondent in connection with this matter, any Patent Office notices regarding the issued patent would not

have been sent to me at my current firm, but instead to the offices of Frishauf, Holtz, Goodman & Chick. In addition, no Patent Office notices were forwarded from Frishauf, Holtz, Goodman & Chick to Lucas & Mercanti, LLP to advise of any patent maintenance fee coming due or past due.

This Statement and the corresponding Petition to Accept Unavoidably Delayed Payment of Maintenance Fee in an Expired Patent is being submitted one (1) day after the undersigned and the Patentee became aware of the expired status of USP 6,475,047 due to the non-payment of the second maintenance fee.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
